---

## Summary:

Dynamic and results-oriented professional seeking a challenging role within an innovative organization where I can utilize my skills and expertise to drive organizational growth. Eager to contribute to a dynamic corporate environment, collaborate with dedicated professionals, and achieve mutual success and advancement.

## Professional Experience:

### **Riverdale Software Solutions | Software Developer [Bangalore, Karnataka]**

*March 2022 – October 2022*

- Led the integration of APIs within CodeIgniter to extract data from NetSuite APIs, optimizing data storage in the AWS Database.
- Identified and meticulously documented errors within the Nivato Project, enhancing the functionality of the online platform for individuals with disabilities.
- Developed and maintained multiple projects using PHP CodeIgniter, consistently delivering high-quality code to meet project objectives.
- Utilized a diverse skill set including HTML, CSS, jQuery, and JavaScript to create engaging user interfaces.
- Collaborated closely with a skilled development team, contributing to the success of various web development initiatives.

### **HospiXperts | Jr. Software Developer [Nagpur, Maharashtra]**

*FEB 2019 – DEC 2019*

- Designed and developed nabhbuddy.com using core PHP, significantly improving user experience and accessibility.
- Created the company's official website, hospiexperts.com, employing HTML and CSS to ensure a professional online presence.
- Played a pivotal role in project planning and execution, streamlining processes and reducing paperwork for hospitals.
- Provided timely and effective technical support to clients, ensuring prompt resolution of issues and maintaining client satisfaction.
- Achieved 100% of project targets by developing official websites and complaint modules in alignment with hospital project plans.

## **Professional Skills:**

- Web Technologies: PHP, CodeIgniter, HTML5, CSS, JavaScript
- Database: MySQL
- Additional Knowledge: Python, WordPress, Photoshop, Flash
- IDE: Sublime, Visual Studio Code, Anaconda Navigator (Python), Adobe Dreamweaver
